

QUALITYLAV

ARTICOLI TECNICI IN GOMMA E SILICONE

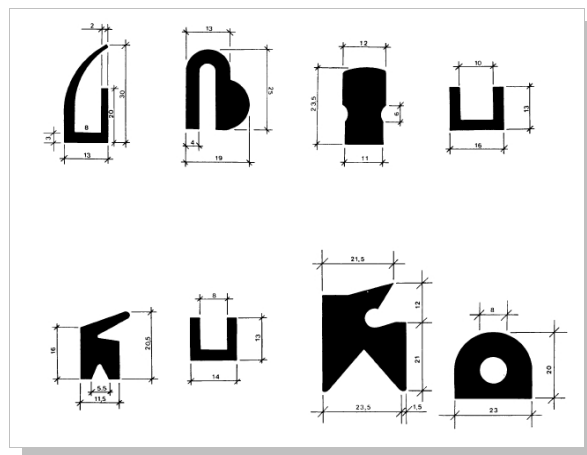

Catalogo

Profili a Disegno

Eseguibili in:

EPDM – Silicone

2023

ATTENZIONE:

Il peso in gr/mt, talora indicato, è teorico. Può variare infatti a seconda della mescola utilizzata per l'estrusione.

Alcune sezioni sono realizzabili solo con determinate mescole e durezza.

TAKE CARE:

The given weight/mtr has a theoretical value. The use of a different rubber can change this weight/mts.

Please take note that some profiles are realized only according to a precise silicone rubber or Shore degree.

ATTENTION:

Le poids par mètre, parfois indiqué, est théorique. En effet il peut changer selon le mélange employé.

Quelques profilés peuvent être boudinés seulement avec des mélanges de caoutchouc bien précis ou avec des duretés particulières.

BEMERKUNG:

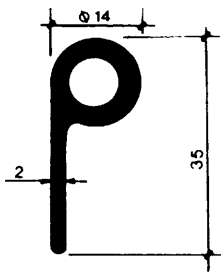

Die angegebene Mtr. Gewichte sind als theoretische Werte anzusehen und können sich nach einzusetzender Gummimischung verändern.

Außerdem ist darauf zu achten, dass einige eingetragene Profile nur aus einer bestimmten Gummimischung, bzw, bestimmten Shore Härte realisierbar sind.
